SCORING: Teams will select their 5 largest fish to be scored on the official score card. The lengths will be converted to weight by a standardized formula and tallied on the score card prior to turning check in. All scored fish must measure a minimum of 12 inches, mouth closed. Tournament standings will be determined by total weight. Only largemouth, smallmouth and spotted bass will be scored for the Bass Division. Teams will tally their results on their official scorecard and both anglers shall sign the card. The Official Scorecard and the pictures from the camera will be turned in at the official check in site. The photos will be used by staff to verify the catches. Teams presenting fish for weight, and which are subsequently determined to be "short", shall be penalized the weight of the short fish PLUS the big fish of the sack. **Incomplete score cards will be assessed a ½ pound penalty.**

CATCH, PHOTO & RELEASE FORMAT: All fish will be measured, photographed and released at the boat. No fish will be brought to the weigh-in tent. The purpose of this format is to provide competition on better fishing waters where minimum length limits would not allow for a tournament. We will have some example photos prior to the event and will go over these procedures at the pre-tournament meeting prior to launch.

Anglers will work together to measure, photograph & release their fish. The procedures shall be as follows:

- A. One angler holds fish on the official measure board. The belly of the fish will face the angler. The nose of the fish must touch the bump plate to the LEFT, the tail is extended back to its maximum length on the right end of the board.
- B. The anglers agree on the length of the fish to 1/4th inch accuracy. If the tail fin crosses the 1/4" mark, the official length may be rounded up to the next 1/4". If the tail just touches or is shorter it would not round up. The minimum scoring length is 12". An 11 3/4" fish cannot round up to 12" the fish would have to measure 12" before it can be scored. Example fish photos and measurements will be provided and discussed at the pre-launch meeting.
- C. While the fish is being held on the board by an angler the other angler takes a photo of the entire fish on the board. A control item will also be included in the photo. This official photo must clearly show the nose of the fish against the board and the length measurements at the tail. Photos of just the tail will not be considered.
- D. Prior to releasing a second photo is taken of the fish being held up by either angler. This may be the photo displayed at the weigh-in ceremony.
- E. The fish is immediately released by the angler holding the fish.
- F. Be sure to record the length on the Official Scorecard.
- G. If two fish are caught at the same time one fish at a time must be measured, photographed, and released as quickly as possible before processing the second fish. NO fish are to be placed in the livewell.

FISH RELEASE: All fish caught must be released in a timely manner. Failing to release your fish will result in an automatic disqualification. Placing fish in a livewell will not be permitted.

TIES: In the event of a tie at the event, big fish will be the deciding factor. In the event that big fish and total weight are the same for two or more teams then the average weigh per fish for each team will break the tie. In cases of a big fish tie, then the In the event that big fish and total weight are the same for two or more teams then the average weigh per fish for each team will break the tie. In the event that we still have a tie the money will be split.

PROTESTS/DISQUALIFICATION: Directors must be notified of all protest before close of scales. Protests also, must be submitted in writing within 10 minutes of the closing of the scales. A "protest committee" consisting of three (3) fellow anglers, randomly drawn by the tournament director will address all protests.

SCHEDULING NOTE: It is Nebraska Sports Council policy to not release team or divisional information until after the entry deadline. With teams waiting until on or near the deadline to enter, releasing data prior to that day does not provide an accurate picture of the tournament field and serves only to discourage those taking a wait-and-see approach.

All teams are encouraged to take advantage of the early entry discount and enter prior to that deadline, which in turn generates additional interest as teams attract one another. In the rare event that a division does not supply enough teams to warrant a viable tournament, teams will be given the option to move to another division, or be issued a refund. We appreciate the understanding of coaches and parents on this matter and would encourage teams to enter early and trust that there will be adequate competition in all divisions.
