Scramble Format

Each player hits a tee shot. You will then determine which of your two tee shots the better shot was. You will then pick up the other ball and place it next to the better shot and both play from there and continue to play like this until you hole out. You may move the ball within 12 inches of the spot the last person played, but the ball must be kept in the same condition (ie if the ball is in the sand both players must hit from the sand).

Maximum score on any Hole is a 6

USGA rules will govern play unless stated below
